Profile

My name is M. Mirmousavi; I am 30 years old.

I am a full-time web developer. I have more than 10 years of experience in software development.

Most of my activities revolve around the Web, and in recent years I have also been working on hybrid mobile applications.

I am especially interested in Front End and I am focusing my efforts in this area.

Along with my main expertise, I have worked on other tasks like Back End, SysAdmin, DevOps to fulfill my own requirements, but my special expertise is Front End.

During my career, I have always been a Linux user and that's why I am well acquainted with DevOps and SysAdmin.

I am always on the hunt for new technologies properly.
